

“San Francisco’s **Carlton Melton** is centered around former Zen Guerrilla’s **Andy Duvall** (Guitar/Drums) and **Rich Millman** (Guitar/Synths). They recorded their psychedelic hypno-drone rock in a genuine geodesic dome, and have created an insane psychedelic squall utilizing alien guitar swells, freaked out tribal rhythms and strange loping pulsations. The heavy vibrations of Can and Pink Floyd suffuse **Carlton Melton**’s work, and they use a bed of classic psychedelic rock as means for the guitars and organ to soar righteously through the stratosphere, before descending into trance-inducing drones which burrow deep into the earth...”
